

(F2) Nemesis 35

New Class of Racing for all pilots.

PILOT PARTICIPATION The F2 Nemesis 35 class is open to all participants who can demonstrate safe flight with a Sport class F1 style Air Racer. Once Participants win 3 races they will be invited to move on to Goodyear F1 class, (same aircraft, larger engine, more excitement) for all following race meetings.

1, Aircraft Seagull Nemesis ARF. (80 inch wingspan Large Scale racing Size) Only variations from standard kit are, Bulkhead maybe braced, adjusted or Strengthen to suit engine used, under carriage mounts maybe braced strengthen and opening filled in, Film recovering and or colour adding is highly recommend to aid for identification purposes, (please, not all white in colour, all white no flight) Current Heavy Model Permit is required for racing.

2, Engine Up to 35cc petrol spark ignition.(includes 32, and 33 cc size engines)

3, Fuel Petrol/oil mix only

4, Muffler In cowl mufflers only

5, Prop Any commercially available FRP like APC etc, or wood, (carbon fibre and/or fibreglass props not allowed.)

Les Sawyer's Nemesis DLE35 making dead stick landing. Very lovely plane to fly says Les Sawyer
